

FOAMALITE® color

CREATIVE SHEET IN VIVID COLOURS.

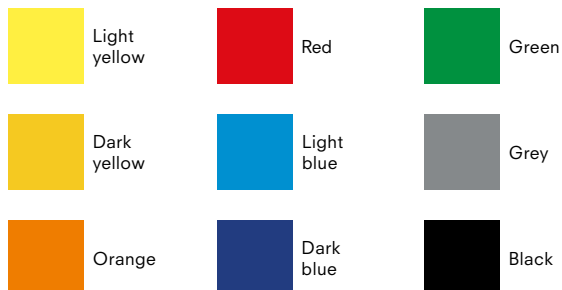

PRODUCT

FOAMALITE® color rounds off the FOAMALITE® product family with a selection of nine different vibrant colours. As the colouring is uniform throughout the rigid foam sheet, it offers optimum colour consistency and guarantees the same colour is seen from different angles. FOAMALITE® color provides designers the best possible colour options for a wide variety of solutions in the field of visual communications. FOAMALITE® color is ideal for enhancing the impact of all advertising with vivid colours.

PROTECTIVE FILM

- PE film on one side as standard
- Protective PE film on both sides on request

COLOURS
